## DIPLOMA PROGRAM

The Unity Alternative Diploma Program has been designed to make the most of the District's innovative approach to education. The accelerated timetable, mixture of online learning and classroom learning, and personalized learning opportunities make the program an exciting alternative to students who struggle in the traditional high school setting. The instructors and students work collaboratively to ensure that each student is on track to graduate by their targeted graduation date. Students take the lead in their education as they benefit from the innovative and progressive approach to education.

**VOCATIONAL TRAINING:** Countless opportunities for vocational and technical training become available with the diploma. Students also earn WITC credits for some coursework while in the program.

**WORK CREDIT:** Students are able to earn high school credit while on the job! Any employed student can earn high school credits for the hours they work on the job.

**KeyTrain CURRICULUM:** Classwork that prepares students to pass the ACT WorkKeys assessment.

**CAREER READINESS:** Students focus on employment skills and personal finance. These skills enable students to make the most of career opportunities available after graduation.

**ACT WorkKeys: NATIONAL CAREER READINESS CERTIFICATE** - Students will graduate with a high school diploma and a career readiness certificate verifying their level of performance in the areas of applied math, reading for information, and locating information. All of which are valuable skills in acquiring and maintaining a job.

## How to Apply

Interested students, resident and non-resident, can contact the High School Principal for enrollment information.
